

Geometry  
4310

Draw  $\triangle ABC$ .

1. What side is opposite  $\angle A$ ?
2. What angle is opposite  $\overline{AB}$ ?
3. What angle is included between  $\overline{AB}$  and  $\overline{BC}$ ?
4. What side is included between  $\angle A$  and  $\angle C$ ?

Determine whether the following pairs of triangles are congruent. State yes or no. If congruent, state the appropriate congruence postulate.
